**Take HPLC/UHPLC to the Next Level in Just Seconds...
...with Core-Shell Technology**

- Increase resolution and maximize performance
- Watch free webinars and tutorial videos
- Search hundreds of applications and journal articles
- Access full libraries of technical resources

Plus, Join the Core Club and Receive a

"The Aeris technology gives me a HPLC separation that was not attainable on any typical reverse phase column for biomolecules... Plate counts are through the roof. The peaks are so sharp and symmetrical it is hard to believe I am analyzing proteins. Thank you for the great R&D and providing a new and significant tool for protein separations! It's awesome!"
- Eli Lilly

"The Kinetex column has worked great for our validated assays. We easily converted our HPLC methods to UPLC methods using the Kinetex column and have enjoyed being to run fast UPLC chromatography..."
- Amgen

"Kinetex technology is my first option for any screening. The improvements obtained are amazing, from 105 min run to a 25 min and counting..."
- Fresenius Kabi, USA
